RESPONSE TO RESTRICTION REQUIREMENT

Sir:

In response to the Office Action dated September 24, 2004, applicant provisionally elects the claims of Group II (claim nos. 15-22), with traverse. While the process of Group I and the process of Group II may be distinct for the reasons set forth by the Examiner, applicant believes that simultaneous examination will not present an undue burden. For example, the claims of Group I are drawn to a process for absorbing moisture from food using embedded carbon additives, classified in class 427, and the claims of Group II are drawn to a process for manufacturing a container having carbon additives, classified in class 162.

Early and favorable consideration of this application are earnestly solicited.
